Data through Nov 26, 2020 verified as of Nov 27, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

Results are reported from commercial laboratory doing serologic testing for COVID-19 IgG or total antibody (IgM and IgG). The performance of the individual commercial laboratory tests used is not known.

**This table is the total number of people tested.** Persons who had more than one specimen tested will only appear once in this table. If a person had a positive result and a negative result, they will be counted as positive. People are only counted as inconclusive if they did not have a positive or negative result.
