# COVID-19 Vaccine Data: Provider Registration

COVID-19 vaccination will happen in phases. This page has information on COVID-19 vaccine provider registration.

All data is preliminary and may change as additional information is submitted to the Minnesota Immunization Information Connection (MIIC), provider registrations are verified, and vaccine availability changes.

Data will be updated weekly on Tuesday at 11 a.m.

**Updated December 15, 2020**

COVID-19 vaccine will be sent to states from the federal government through the CDC. All health care providers who are COVID-19 vaccinators formally registered with MDH and completed a federal COVID-19 vaccine provider agreement to receive and administer vaccine. Find more information on provider registration at [COVID-19 Vaccine Provider Registration](http://www.health.state.mn.us/diseases/coronavirus/vaccine/vaxreg.html) (<http://www.health.state.mn.us/diseases/coronavirus/vaccine/vaxreg.html>).

Right now, we are prioritizing providers that will target people in phase 1a of the COVID-19 vaccination program. Registered providers will change as we move into more phases of COVID-19 vaccination. Find more information on the phases of COVID-19 vaccination at [COVID-19 Vaccine Phases and Planning](http://www.health.state.mn.us/diseases/coronavirus/vaccine/plan.html) (<http://www.health.state.mn.us/diseases/coronavirus/vaccine/plan.html>).

**Total number of providers registered: 589**

This is the number of providers who have completed the full registration process. There is a delay in the data, because after we get the final provider agreement, we take time to make sure that the licenses of prescribing providers are active.
