PORTLAND, Ore. — There are 0 new COVID-19 related deaths in Oregon, and the state’s death toll remains at 2,208 the Oregon Health Authority reported at 12:01 a.m. today.

Vaccinations in Oregon

Today, OHA reported that 29,330 new doses of COVID-19 vaccinations were added to the state immunization registry. Of this total, 19,513 doses were administered on Feb. 27 and 9,817 were administered on previous days but were entered into the vaccine registry on Feb. 27.

Cumulative daily totals can take several days to finalize because providers have 72 hours to report doses administered and technical challenges have caused many providers to lag in their reporting. OHA has been providing technical support to vaccination sites to improve the timeliness of their data entry into the state’s ALERT Immunization Information System (IIS).

Oregon has now administered a cumulative total of 973,022 first and second doses of COVID-19 vaccines. To date, 1,194,495 doses of vaccine have been delivered to sites across Oregon.

These data are preliminary and subject to change. OHA’s [dashboards](#) provide regularly updated vaccination data, and Oregon’s dashboard has been updated today.
